PROJECT DETAILS

Software Name: Club Connect

Department Context: College Student Clubs

System Type: Student Clubs Management & Resource Platform

Date of Submission : 27-06-2026

TEAM DETAILS

Team Name: SprintForge

Team Code: MAY2026-Team-073

Name	Roll No	Role
Arya Sinha	22f3002500@ds.study.iitm.ac.in	Scrum Master/Code Reviewer
Ayush Aryamaan Puhan	21f3001196@ds.study.iitm.ac.in	Product Manager/Frontend Developer
Ehsaas Bhalla	23f3002949@ds.study.iitm.ac.in	Backend Developer/Frontend Developer
Shubham Singh	23f2005282@ds.study.iitm.ac.in	Tester/Code Reviewer
Akash Kumbhakar	23f1001065@ds.study.iitm.ac.in	Backend Developer/Tester

IDENTIFIED USERS/ POTENTIAL STAKEHOLDERS

01 PRIMARY USERS

Students

Students are the primary users of the Student Club Management System. They can browse club information, apply for membership, participate in events, access club resources, receive announcements, and engage with various club activities.

Club Operations Team

The Club Operations Team is responsible for managing and overseeing club activities. This includes handling memberships, organizing events, coordinating volunteers, managing committees, maintaining club records, and ensuring the smooth operation of the club. Event Coordinators, Volunteer Coordinators, and Committee Members operate as specialized roles within the Club Operations Team.

02 SECONDARY USERS

Club Leadership

Club Leadership consists of individuals responsible for providing direction, making strategic decisions, and overseeing the overall growth and success of the club. This group includes roles such as President, Vice President, Secretary, and Treasurer, who collectively manage club governance, planning, administration, and financial activities.

Faculty Advisor / Coordinator

The Faculty Advisor or Coordinator serves as the official mentor and supervisor of the club. They provide guidance, ensure compliance with institutional policies, support decision-making, and help maintain alignment between club activities and the organization's objectives.

03 TERTIARY USERS

University Administration

University Administration represents institutional authorities that oversee and support student clubs. This includes offices such as the Student Affairs Office and the Dean of Student Welfare, who monitor club activities, ensure compliance with university policies, approve major initiatives, and provide administrative guidance when required.

Sponsors & Industry Partners

Sponsors and Industry Partners are external organizations that collaborate with the club by providing financial support, resources, mentorship, internship opportunities, workshops, or industry exposure to enhance club activities and student development.

External Event Participants

External Event Participants are individuals who engage with the club during specific events or programs. This category may include students from other universities, guest speakers, and competition participants who contribute to or participate in club activities on a temporary or event-based basis.

- Joydeep Bhattacharya - Student
- Animesh Kumbhakar- Club Operations Team, House Secretary
- Shreyansh Mall - Club Leadership
- Lalit Kumar - Faculty Advisor
- Shivansh Sharma - Treasurer

USER RESEARCH & PAIN POINT ANALYSIS

01 RESEARCH OBJECTIVE

To understand the coordination gaps and inefficiencies faced by students and club stakeholders in the current manual system of managing student clubs.

02 KEY OBSERVATIONAL INSIGHTS

- Fragmented Communication — Club updates are scattered across WhatsApp, posters, and word-of-mouth, with no single source of truth.
- Manual Operations — Membership approvals, event registrations, and attendance are tracked manually, causing delays.
- No Centralized Visibility — No system tracks clubs, memberships, events, or engagement metrics.

03 STAKEHOLDER PAIN POINTS

- Students — No single platform to discover clubs; miss announcements; can't track application status.
- Club Operations Team — Manual membership and event tracking; no targeted communication tools.
- Club Leadership — No consolidated view of performance, finances, or scheduling.
- Faculty Advisor — Hard to monitor compliance and engagement across multiple clubs.
- House Secretary — No structured workflow to review club creation requests.
- Treasurer - Manual budget and expense tracking; time-consuming financial approvals and report generation.

04 CROSS-STAKEHOLDER PATTERNS

- Manual, fragmented communication
- No centralized record-keeping (membership, events, attendance)
- Delayed approval workflows
- Limited visibility into club performance
- No digital proof of participation/certification

05 ROOT CAUSES IDENTIFIED

- No centralized club management platform
- No structured registration/approval workflow
- No notification or analytics system

06 OVERALL CONCLUSION

Student demand for club participation is strong, but manual, fragmented processes create communication gaps and administrative overload. A centralized digital platform is needed to streamline membership, events, communication, and governance.

USER STORIES

01 CLUB INFORMATION

As a Student,
I want to discover all active clubs, their objectives, activities, achievements, and upcoming events from a single platform,
so that I can easily find clubs that match my interests and participate in them.

02 MEMBERSHIP STATUS & TRACKING

As a Student,
I want a simple process to apply for club membership and track the status of my application,
so that I know whether I have been accepted, rejected, or need to provide additional information.

03 INTEGRATED EVENT MANAGEMENT

As a Student,
I want to receive personalized notifications for relevant club activities, register for events directly through the application, and access an integrated calendar of upcoming engagements,
so that I can stay informed without being overwhelmed, secure my participation effortlessly, and plan my schedule to never miss important opportunities or deadlines.

04 CLUB CREATION REQUEST

As a Student,
I want to submit a request to establish a new club and seek approval from the House Secretary through the system,
so that I can formally propose and manage a club based on a specific interest or activity area.

05 DOCUMENT VAULT

As a Student,
I want to receive certificates, participation confirmations, and other club-related documents digitally,
so that I can access and download them whenever needed.

USER STORIES

06
INCLUSIVE SAFETY & ACCESSIBILITY

As a Student,
I want to report emergencies or harassment and have the platform support accessibility adjustments (e.g., color-blind-friendly themes or wheelchair support),
so that I can get immediate help when needed and use the system comfortably regardless of my physical or visual abilities.

07
CLUB & APPLICATION MANAGEMENT

As a Student Club Manager,
I want manage club profiles, activities, and announcements while reviewing and processing membership applications from a centralized platform,
so that I can maintain an organized membership base and ensure students have access to accurate, up-to-date information.

08
AUDIENCE BROADCAST

As a Student Club Manager,
I want to send targeted notifications and announcements to specific groups of students or club members,
so that important information reaches the intended audience without unnecessary communication.

09
EVENT MONITORING & SAFETY

As a Student Club Manager,
I want to monitor real-time attendance records and receive instant alerts for any emergency or harassment reports during an event,
so that I can accurately evaluate participation success while ensuring immediate response to safety concerns and attendee well-being.

10
INTEGRATED SUPPORT & NOTIFICATIONS

As a Student Club Manager,
I want to raise platform or process support tickets, manage their resolution via a centralized dashboard, and receive automated email notifications for updates and event reminders,
so that our club's operational requests are handled systematically and my team stays informed without having to do inperson followups.

USER STORIES

11
FINANCIAL OPERATIONS & APPROVALS

As a Treasurer,
I want to digitally manage budgets and expenses while processing financial approvals through automated workflows and email notifications,
so that I can maintain accurate records and ensure transparent, authorized decision-making for all club transactions.

12
AI FINANCIAL ANALYTICS & REPORTING

As a Treasurer,
I want to access automatically generated monthly reports and AI-powered financial insights for risk monitoring and utilization,
so that I can make data-driven decisions to optimize the club's fiscal health with minimal manual effort.

13
FACULTY OVERSIGHT & AI ANALYTICS

As a Faculty Coordinator,
I want to oversee club activities, approvals, and finances while accessing AI-powered performance reports and suggestions,
so that I can ensure policy compliance and provide data-driven guidance to improve student engagement.

14
PROPOSAL EVALUATION

As a House Secretary,
I want to review and evaluate requests for new club creation submitted by students,
so that I can approve suitable proposals and ensure that new clubs align with institutional guidelines and student interests.

15
GLOBAL CLUB REGISTRY

As a University Administrator,
I want to oversee all clubs and review requests for the creation, renewal, and operation of student organizations across the institution,
so that I can ensure compliance with university policies, maintain effective governance, and support the growth of legitimate student-led initiatives.
